*Setting free children's explorative nature*

# Classic WORLD

Classic Toys (Ningbo) Co., LTD., founded in 1998, is a well-established toy manufacturer based in Ningbo, China. Built from the ground up, we place great value on hard work, reliability, and creativity. Our 20,000-square-meter production plant—staffed by over 500 employees—boasts clean, modern facilities that enable large-scale production without sacrificing attention to detail. We invest significant time and effort in product design to ensure our toys are engaging and enjoyable for children. We also adapt quickly to customer needs through updated strategies and perspectives, and we consistently enhance our standards to not only meet but exceed safety requirements. This commitment has earned a strong reputation for both our customers and us.

Classic Education is a premium educational toy brand that supplies kindergartens and daycare facilities in China and overseas. Over the past decade, we have partnered with renowned early education institutions—including Oriental Baby-Love, My Gym, RYB Learning Center, and Gymboree—as a trusted collaborator. By promoting a nature-inspired play environment, we encourage children to learn actively and think creatively. Classic Education strives to provide children with a happy, intellectually enriching childhood!

Beyond our extensive industry experience, Classic Education also maintains a professional sales and training team, an experienced installation crew, and robust logistics support. Tailored to our customers' needs, we offer comprehensive pre-sales and after-sales services, as well as regular customer check-ins—all to build and sustain a trustworthy relationship with those we serve!

*about us*

# Quality & Safety

Classic World has supplied toys to children in over 50 countries worldwide. At Classic World, we set a high bar for quality: we ensure our products meet rigorous quality standards through strict inspections and adherence to EN, ASTM, and ISO 9001:2000 international guidelines.

We use sustainable, nature-derived materials and follow eco-friendly production processes—all to create a safe, clean world for our children.

# Materials

The major materials for outdoor products are made of redwood. Treated with preservatives, this wood boasts antifungal, mold-resistant, and termite-proof properties—along with exceptional adaptability to fluctuating temperatures and humidity.

Its high density makes it resistant to rot when exposed to water. Additionally, it offers:

- Termite-proof, mosquito-repellent, anti-odor, anti-mold, and anti-blackening benefits.
- Resistance to deformation, wear, and corrosion.
- Impressive physical properties (compression resistance, shear resistance, and strong nail-holding capacity).

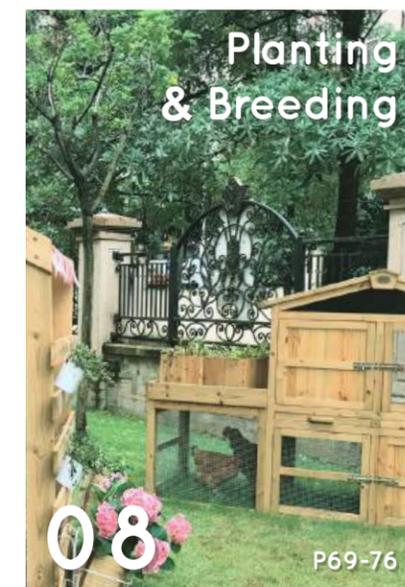

Paired with simple, sleek design lines, its natural color, grain, and texture perfectly embody the product's premium quality and inherent beauty.

# Contents

## 9 Categories

It creates a fun play environment for children through indoor and outdoor play areas.

 Flexibility	 Muscular Endurance	 Cardiorespiratory Endurance	 Coordination	 Muscular Strength	 Balance	 Agility
