

# Smoby

SPRING  
SUMMER  
2026

SIMBA · DICKIE · GROUP

1<sup>st</sup> FRENCH TOY MANUFACTURER

### SMOBY IN A FEW WORDS

As a multi-specialist, **we design and manufacture toys for children aged 0 to 8** and support them through every stage of their development.

All Smoby toys are imagined and designed at our head office in the Jura region. Today, **75% of our products are manufactured in France**. When you buy a Smoby product, you help creating almost **600 jobs** in France.

### LET'S TALK ABOUT ECO-RESPONSIBILITY :

Certified **ISO 50001**, a standard made to help companies **reduce their energy consumption**, Smoby has already **cut its energy consumption by 24% since 2015**, the equivalent of 463 homes.

### AND WHAT ABOUT THE PRODUCT ?

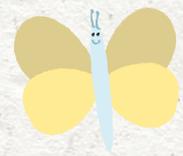

Eco-design at Smoby means limiting the impact of our products on the planet, throughout their entire life cycle. It starts with the choice of raw materials and **local manufacturing**, followed by the management and **optimisation of storage and transport**.

Our products are designed to be **robust** and **durable**, going beyond the toy standard, and can be fully **dismantled** for easy repairing or recycling.

### WHAT ARE THE ADVANTAGES OF PLASTIC IN TOYS ?

- Safe materials (the toy sector is highly regulated)
- Freedom of shape and colour
- Easy to clean, practical and lightweight!

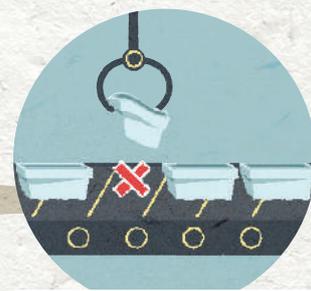

Toys that are more environmentally friendly, they are recyclable and contain **recycled** materials ! Robust, durable toys that can be passed down from generation to generation.

### THE ORIGIN OF RECYCLED MATERIAL

Post-consumer waste

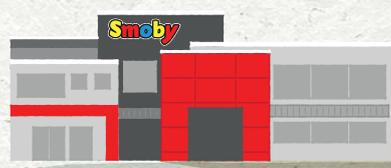

Post-industrial waste

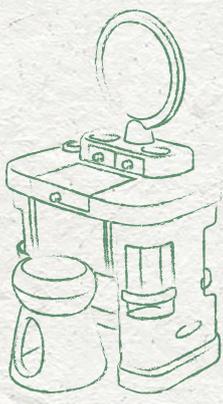

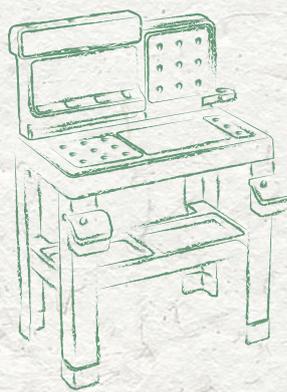

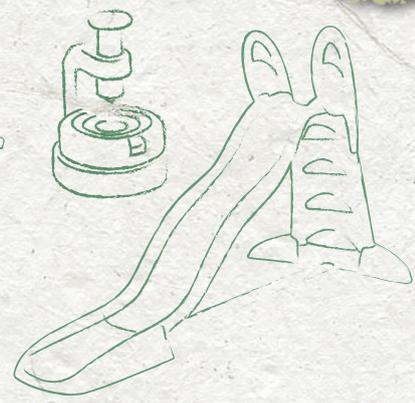

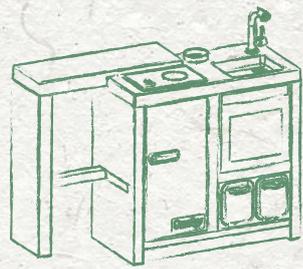

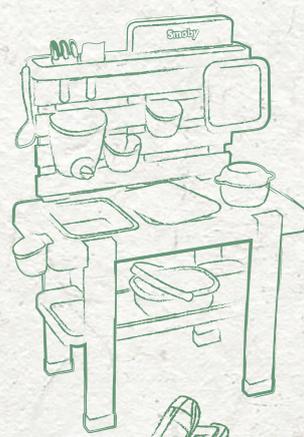

Transforming waste into recycled plastic :

The aim is to approach **100% recycled toys !**

Deployment of recycled materials in all our ranges and iconic products:

**Because tomorrow's world is being built today !!**
